AVITA
LIVE IT UP

PRODUCT GUIDE

OVERVIEW

Nexstgo is committed to bring new & revolutionary experiences through innovations that range from commercial products to corporate solutions, PCs to IoT devices and smart home products to artificial intelligence. Dedicated towards producing cutting-edge tech products with a human-oriented approach, Nexstgo offers solutions that challenge the status-quo and surpass limitations by creating immense value for its users and inculcating pathbreaking ideas to products and business models.

AVITA's advent was based on reclaiming the wonder and power of the individual and developing technological projects which will augment these qualities. We are continuously innovating and marketing premium technology products in over 16 countries serving millions of customers. Our incredibly vibrant and dynamically robust gadgets not only refine your lifestyle, but are an extension through which you are able to express your individuality holistically.

AVITA's eclectic consumer technology product series which ranges from PC to smart home and IoT devices has come to fruition based on three core values: Liberty, Diversity and Individualism culminating in an exceptional and highly personalized experience for the new generation of tech users. Your ideas, passions, personal style: everything that makes you uniquely you, inspires us. And, we believe that your choice in technology shouldn't just define you, it should embellish the best of you in all circumstances.

Our team is comprised of dynamic technocrats who, before starting up AVITA, have worked extensively in product development for various behemoths in the tech industry. It was their collective zeal for outstanding design and meaningful technology that brought them together to form AVITA.

"Live it up" is much more than just a tagline to us, it's the core of our brand's ethos and company DNA.
